

MRS. TERESA MARTIN - 7TH SCIENCE/WELLNESS

I was born in Lane County, but have lived in many places in both Washington and Oregon. I have attended 18 schools in my K-12 school experience, and the longest I ever attended one school was the last three years of high school. I grew up loving music and sang in my schools' choir and finally landed on a state champion dance team once I got to high school. I still use my love of music and movement to teach fitness classes in addition to teaching students in my classroom. I have done a number of different things, but have always kept my foot in education. I believe in building into people and helping them see their potential, their possibility. It is my calling in this life. Although I am not the private investigator I thought I would become, I love my job even on hard days.
